

Bears - Misc Writeup

Description: Per new synergy guidelines, all confidential beet logistics are now embedded directly into visual brand assets. Please extract your action items from the attached mascot photo.

Solution

The provided file was bear.png. Running `exiftool bear.png` revealed a PNG Comment field containing the flag. ImageMagick's `identify -verbose bear.png` confirmed the same metadata.

Commands

```
exiftool bear.png  
identify -verbose bear.png
```

Flag

```
brunner{b34rs_347_b337s}
```
